Continuation of [REDACTED]

25X1A5a1 1. Acknowledgement is made of your memorandum of 10 May relative to the arrangements for the continuation of [REDACTED]

25X1A6a 2. The [REDACTED] new topics for research proposed by your Office has been forwarded to [REDACTED] for consideration through the intermediary of the [REDACTED]. It has been suggested that in due course [REDACTED] team prepare and submit a preliminary outline of the proposed studies, upon receipt of which you will be in a position to authorize the research.

25X1A5a1

3. [REDACTED] who has received top secret clearance, has had several discussions with [REDACTED] concerning his participation in the research. [REDACTED] is believed that that portion of your memorandum which deals with [REDACTED] studies has already been discussed direct with him during his visits.

25X1A5a1

25X1A5a1

4. No further progress has been made on [REDACTED] study on the [REDACTED] Stalin. It is proposed that this study be continued by [REDACTED] who is at the moment undergoing security clearance.

5. The urgency of certain of your requirements is fully realized and everything possible is being done to expedite security clearances. As soon as such clearances are obtained we shall make the necessary arrangements which enable members of your staff to discuss your requirements in detail with the appropriate key personnel [REDACTED]. This was done in the case of [REDACTED].

[REDACTED] At the moment I am arranging to have [REDACTED] who has just been cleared, come to Washington on 31 May and 1 June for a conference with those members of our various Offices who are interested in his particular field. I propose to take up with him at that time the matter of the minority study by [REDACTED] who, I understand, has already departed for Turkey, ostensibly under the auspices of the [REDACTED]. For your guidance I enclose a list of the names submitted by [REDACTED] for security clearances indicating current status of each candidate.

25X1A5a1

6. As requested in paragraphs six and seven of your memorandum I confirm our mutual understanding that the studies undertaken by [REDACTED] on behalf of your Office would be accorded the highest possible security, and that no external discussion whatever or dissemination of materials produced in your interest will

be made without prior authorization from your Office. It would seem to me, however, ~~25X1A5~~ this injunction would be difficult to enforce in some instances, particularly with regard to certain studies which were originally initiated by the [REDACTED] group and are to be continued under our auspices. As the existence of these projects is known to other consumers, it may become imperative to allow limited dissemination of such studies; subject, of course, to your acquiescence and possibly the deletion of most sensitive parts of the reports.
